

E21299

Reflector for retro-reflective sensors

REFLECTOR TS-48X48

| Application          |      |                                                                        |
|----------------------|------|------------------------------------------------------------------------|
| Design               |      | rectangular, for red light and infrared light retro-reflective sensors |
| Operating conditions |      |                                                                        |
| Ambient temperature  | [°C] | -10...60                                                               |
| Mechanical data      |      |                                                                        |
| Weight               | [g]  | 17.8                                                                   |
| Dimensions           | [mm] | 61 x 51.5 x 8                                                          |
| Reflector surface    | [mm] | 48 x 48                                                                |
| Materials            |      | front panel: PMMA; base: ABS                                           |
| Remarks              |      |                                                                        |
| Pack quantity        |      | 1 pcs.                                                                 |
